July and August Monthly Actions: Agency Took Licensure Action against six Providers, 26 Additional Providers Suspended or Terminated from the Medicaid Program

Tallahassee, Fla. – The Agency for Health Care Administration (Agency) issued final orders to six providers for failure to meet licensure requirements during the months of July and August.

There were three final orders to revoke an existing license, two to deny a license renewal, and one that resulted in the provider surrendering its certificate of exemption. Some of these providers were enrolled in the Medicaid program and the Agency has terminated or is in the process of terminating their participation in the program.

In addition, 19 providers were issued final orders terminating them from participation in the Medicaid program and have been reported to the federal government for placement on the federal exclusion list, which prohibits them from participating in Medicaid and Medicare nationwide. The Agency also suspended seven providers from participation in the Medicaid program, prohibiting the providers from being paid for claims to the Medicaid program for furnishing, supervising a person who is furnishing, or causing a person to furnish goods or services.

Agency Medicaid terminations and suspensions typically result from failure to return funds due to the Agency within required timeframes; a charge, indictment, or guilty plea to a health care related crime; suspension, termination, or exclusion from Medicare or Medicaid in another state; or a license denial, revocation, suspension or termination by the licensing agency.
